

BULLTIP SEAL Data Sheet

Acme Reg. No. 0707070
Design Reg. No. 2032028/1

The Acme **Bulltip Seal** is a fixed length seal manufactured from two dissimilar materials. The acetyl insert is durable and will withstand freezing and boiling conditions, whilst the polypropylene body is flexible for easy use. The design includes rolled heat staking technology to secure the insert to the body, which provides clear evidence of tampering if forced open or cut and a break off point for easy removal. Whilst having the same technical characteristics as the Bulldog seal, this seal has an indicator at the locking end which protrudes through a hole in the underside of the locking head signifying it has been correctly locked.

Technical Data

Recommended Applications

Airlines, Cargo, Trailers, Containers, Rail freight, Refineries, Warehouses, Cash bags, Postbags, Lockers.

Material

Body - Polypropylene
Insert - Acetyl

Available Operating Length

19cm (overall 21cm)

Strap Width

7.5mm

Average Breaking Strength

20kg

Marking

Laser or Foil marking
Consecutively numbered as standard
Optional Customer name/logo
Optional Laser Barcoding

Colours

Foil marked: red, blue, green, yellow, orange, black and white.

Laser or Foil marked: pastel shades of pink, blue, green, yellow and peach, also black and white.

Other colours may be available on request.

Packaging

Standard Packaging : 10 per mat and 1,000 seals/carton
Carton Dimensions : 33cm x 25.4cm x 25.6cm
Carton weight : 3.7kg/carton
